DISINFECTION, SANITISING  
& STERILISING SOLUTIONS

## AIRZONE ODOFREE

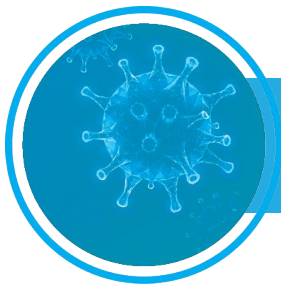

The Airzone OdoFree Air Sanitiser and Freshener operates continuously, applying set amounts of ozone at desired levels to maintain clean, purified, odour free air in washrooms, toilets, garbage or smoking areas.

\*Product image may vary\*

### APPLICATIONS

- Oxidises micro-organisms and contaminants that cause bad odours and removes them permanently
- Removes smoke odours in the room or from clothing, furnishings and carpets
- Reduces and removes toxic gases such as toluene and formaldehyde emitted from furnishings, clothes and paints
- Neutralise and remove micro-organisms in the air and surfaces in toilets and kitchens
- Discourages dust mites, pet dander and cockroaches by killing the bacteria, they are attracted to
- Prevents the growth of mould and maintain a bacteria free environment
- Maintains fresh clean air in musty mouldy environment
- Lavatories / toilets
- Staff toilets and gym toilets
- Pubs, restaurants smoking rooms
- Hotels, casinos, offices
- Canteen / staff kitchen

OZONE CAN BE YOUR WARRIOR AGAINST COVID-19

## SPECIFICATIONS

<b>MODEL</b>	<b>Airzone OdoFree</b>
<b>OZONE OUTPUT</b>	200mg/h
<b>VOLTAGE</b>	100-240V/50-60HZ
<b>RATED WATTAGE</b>	7W
<b>MAXIMUM AREA SQM</b>	30 sqm
<b>OZONE WORKING PERIOD</b>	0-30 minutes
<b>DIMENSIONS</b>	22cm x 10.5 cm x 5 cm
<b>WEIGHT</b>	0.50kg
<b>TIMER</b>	<ul style="list-style-type: none"> <li>• 24-hour timer</li> <li>• Adjustable auto cycle working period 1-12 hours</li> </ul>

Ozone is a toxic gas and should not be inhaled. High levels of ozone in the air can be dangerous, especially for asthma or similar types of conditions which the visitor may have, therefore the ozone function would normally be deployed when the area in which it is situated is semi vacant or unoccupied and this will ensure sanitisation of the air and surfaces.
